

EAA CHAPTER 1128
Two Harbors Helgeson Airport
www.1128.eaachapter.org

Distant thunder makes my window seat seem all the more cozy as I look out on the lake. I had to stop loading the van so I thought I would remind you that our next meeting will be on **Thursday, August 3rd at 6:30** at our favorite airport. The reason I'm loading the van is **Oshkosh Airventure 2017**, which is about to commence. I hope you can make it.

Last Meeting

The July meeting was very well attended with eager pancake makers. We went over all the details for the Pancake Fly-in and put all the ducks in a row. Mike told us about a place in Bemidji that does restoration work on old warbirds and suggested we make a trip to take the tour. (Air travel preferred). Dave said we can still make a fly-out to Grand Marais. We talked about ways to deal with the geese that threaten our airplanes and poop on the runway. We also talked about making a donation to the high school robotics team.

341

All of the local airports are buzzing with activities this summer, one has but to look.

ETC.

Last month I failed to mention the fabulous tour we took at Cirrus in June. Bill King led an embarrassingly small group through the amazing facility including the Vision Jet production line. I hope we can talk him into it again when more of our members can participate.

I'm sure you can tell I'm being ruthlessly brief with this month's missive. I apologize but this time of year I'm only thinking about Oshkosh. I put Fifi on her trailer yesterday and now I've got a lot of packing to do. We will be flying the ultralight pattern every good day so come down and watch us if you go. I bought a burner phone this year so maybe I won't miss as many connections as I always do. Try me at 218 830 9597 when you're on the grounds and we'll get together.

I hope to see you all there and.....Happy Landings!.....
